### CE Direct 2.0 is Coming Very Soon!

The CE Direct system you know and love is about to receive a major upgrade. Among the immediate improvements are a much cleaner and intuitive course browsing experience; new and simpler reports; as well as a more dynamic start page. These upgrades will also provide the foundation for many more options and system capabilities in the near future.

While these changes are definitely significant and impactful, the overall CE Direct experience will not change dramatically. The menus might look a bit different, but all of the great courses and features from the current system will definitely still be included in CE Direct 2.0.

We expect to begin rolling out these upgrades in early December, with more improvements scheduled to be added throughout 2009. To get a sneak peak of the changes be sure to sign-up for one of our upcoming CE Direct 2.0 webinars listed on the right of this enewsletter.
